

10th Anniversary

14th September 2019

**P'CELL 10th Anniversary
& New Products Launch**

Scientifically Proven Stem Cell Technology For a More Beautiful and Healthier You

Keep You Young & Beautiful Forever *P'CELL maintains your youth*

- P'CELL is made from patented formula that is safe and healthy for all skin types;
- Our scientists use over 200 different types of growth factors and anti-aging factors as the core foundations for P'CELL;
- Growth factors in P'CELL are extracted from the stem cells of White Horse umbilical cord and placenta tissues. These cells are aged "0" and are capable of the "4R":
1. Regeneration, 2. Repair, 3. Rejuvenation, 4. Renew.
- P'CELL is therefore highly effective, safe and fast in helping with scar regeneration, wound healing, wrinkle reduction and skin nourishment and can treat several skin ailments such as melasma, dry skin, bruises, acne, large pores etc.

We will be inviting dermatologists, cosmetic or plastic surgeons, stem cell technology experts and scientists in various fields from KenCare Group, Farrer Park Hospital as well as other organisations from all over the world. You will also be able to network with our guests of honor, consultants, advisors and business partners in skincare, healthcare, investment and many other sectors.

Morning Program
